

ALSAYED ALAKHRAS

FULL STACK DEVELOPER – LARAVEL | VUE.JS | TAILWIND

Gaza, Palestine | +972 59-431-8545 | alsaeydjalakhras@gmail.com

SUMMARY

Full Stack Developer with over 4 years of hands-on experience building real-world web systems for companies, NGOs, and startups. Specialized in Laravel-based backends and modern frontend interfaces using Vue.js and Tailwind CSS.

Worked on complex business systems including financial management platforms, medical and administrative systems, and large-scale content platforms. Experienced in both freelance and team-based environments, with a strong ability to translate business requirements into clean, maintainable technical solutions.

Comfortable working independently or leading small teams, using tools like Trello and Notion to organize workflows. Actively leveraging AI tools to improve development speed and code quality, while continuously learning and improving skills in areas such as SEO and system optimization.

WORK EXPERIENCE

Full Stack Developer (Freelance)

2021 – Present | Remote

- Built and maintained real-world web systems for NGOs and small to mid-sized businesses.
- Developed Laravel-based backends with role-based access, reports, and business logic.
- Implemented modern frontend interfaces using Tailwind CSS, Vue.js, and jQuery.
- Worked directly with clients to understand requirements and deliver maintainable solutions.

Full Stack Developer – Palgoals

2024 – Present | Remote

- Worked with Palgoals as a freelance developer and active team member on multiple projects.
- Built independent frontend interfaces and integrated them with Laravel backends.
- Developed and maintained Vue.js admin dashboards connected via REST APIs.
- Participated in task planning and team coordination using Trello and Notion.

Software Engineer – Salah Islamic Society

Jan 2024 – Sep 2025 | Gaza, Palestine

- Developed internal systems for financial, medical, and administrative operations.
- Built financial management platforms handling salaries, expenses, and reporting.
- Implemented role-based permissions and reporting features using Laravel and MySQL.
- Improved system usability with responsive interfaces built using Tailwind CSS.

SKILLS

- PHP (Laravel) - MySQL (MariaDB) - RESTful APIs	- HTML5 / CSS3 - JavaScript (ES6) - Tailwind CSS - jQuery - Vue.js	- Git & GitHub - Task Management (Trello, Notion) - AI-assisted Development (ChatGPT, Cursor) - System Optimization & Clean Code Practices
Currently Learning - SEO fundamentals - Performance optimization		

PROJECTS

Project: Financial Management System

Stack: Laravel, jQuery, MySQL

- A financial system developed for a charitable organization to manage salaries, expenses, deductions, and financial reports with role-based access and structured workflows.

Project: Medical & Administrative Management System

Stack: Laravel, MySQL, Tailwind CSS

- An internal system for managing medical records and administrative operations, including data tracking, reporting, and role-based permissions for institutional use.

Project: Sahra Plus Platform

Stack: Laravel, MySQL, Tailwind CSS, REST APIs

- A large-scale content streaming platform featuring content management, subscriptions, payments, and multi-language support. Built with a scalable backend architecture and modern frontend interfaces.

Project: Educational Platform – Palgoals

Stack: Laravel, Vue.js, Tailwind CSS, REST APIs

- Contributed to building and maintaining an educational platform with frontend interfaces and Vue.js admin dashboards integrated with Laravel backends in a team-based environment.
